

# UNIFYING EVENT INFORMATIONS-A CENTRALISED PORTAL FOR EVENT REGISTRATION

## TEAM MEMBERS:

Vaishnavi -(73132205045)

Gowthama Solan.R -(73132205010)

Ramya.G -(73132205032)

Obulikuppuraj.V - (73132205028)

## GUIDED BY

Ms.S Dhasamalika M.E.,  
Assistant professor

## AGENDA

- Domain
- Abstract
- Existing system
- Drawbacks
- Proposed system
- Advantages

# **DOMAIN**

## **Full Stack Development**

- This project falls under the domain of **Full Stack Development**, which involves both frontend and backend web development.
- The system includes a **user interface** for students and faculty to view event announcements and register, and a **backend** for storing and managing event data.

## **ABSTRACT**

- To develop a centralized platform that allows easy access to all event-related information and registration forms within the institution.
- Event details in educational institutions are often scattered across emails, WhatsApp, and notice boards, leading to confusion and low participation.
- A centralized digital portal is needed to streamline announcements and registrations, ensuring better communication, accessibility, and engagement.

## **EXISTING SYSTEMS**

- Event information is shared via emails, WhatsApp groups, classroom announcements, and physical notice boards.
- Registration is often done through Google Forms or offline modes.
- Lack of a centralized source leads to confusion.
- Faculty Plus website for faculty job Search and lists of FDPs(Faculty Development Programs) and Workshops.

## DRAWBACKS

- Information is Scattered and Confusing
- Low Participation: The scattering of event details and resulting confusion contribute to low.
- Lack of Centralization and Reliability: There is a lack of a centralized source for event information
-

## **PROPOSED SYSTEM**

- The proposed system is a web-based unified portal for event management.
- Centralized dashboard for event announcements.
- Admin upload feature for event posters and forms.
- Students can register directly via the portal.
- Notification system for updates and reminders

## **ADVANTAGES**

- Centralized and consistent access to event information.
- Improved participation and awareness.
- Efficient tracking of registrations.
- Time-saving and reliable for both students and organizers.

**THANK YOU**
